## THAW COKE TRUST LEASES THOUSAND ACRES OF COAL

To Mount Pleasant Coal & Coke Company on Royalty.

### PLANT OF 500 OVENS TO BE BUILT

ON THE E. L. SNYDER FARM  
NEAR CARPENTERTOWN.

Some of This Coal was Bought Years ago for \$90 an Acre, Having Been Tied up on Oil Leases, But Now it Brings Many Times That Sum. There is Already Talk of This Deal Leading the Pennsylvania Railroad to Complete its Mount Pleasant Branch Through to Hecla.

William A. Wilson and Jacob U. Kuhns, of Greensburg, the principal owners of the Mount Pleasant Coal & Coke Company, have just closed a deal whereby their company secures 1,000 acres of most valuable Mount Pleasant township coal from the William Thaw coke trust on a royalty.

The coal is that underlying the old Rumbach, Myers and Hunter farms near Carpentertown where the trust's field extends from Hecla to Brush Run. It is said that the purchasers will at once proceed to the erection of a model coke plant of 500 ovens on the farm of E. L. Snyder, some three miles or more north of this place. The opening to the coal will be by shaft, 280 feet deep. The tipple will be a steel affair of the most improved order.

Considerable coal in this section, and some of this field, was tied up about 25 years ago by the Hostettlers, of Pittsburg, on oil leases that gave the owners no little trouble, although they eventually disposed of their holdings to the late William Thaw who got many hundreds of acres at \$90 per acre, coal that now realizes his estate many times that sum. It is said that the H. C. Frick Coke Company would have been glad to stand in the Mount Pleasant company's shoes as the field lies between its Standard mine field and Hecla where the coal also belongs to the Thaws and is being operated on a royalty. Standard has, however, coal enough to last for the next forty years. There is a rumor that the expenses of her son's murder trial led Mrs. Thaw to make the deal, but her Pittsburg agents deny that such was the case.

Over twenty years ago the Pennsylvania Railroad Company graded a line for the extension of its Mount Pleasant branch through to Hecla to connect with its Sewickley branch. This was laid out to pass through the Snyder farm where the new coke plant will be built, and there are those who claim the extension will now be made.

The new plant of the Connellsville Mutual Coke Company, located on the Love farm at Mutual, has been started in full. The plant consists of a block of 32 ovens and about 20 acres of coal.

Some 250 people enjoyed the outing of the Frick Veterans' Association held at Chi-Epsilon Saturday. D. M. Pigman and J. E. Criswell represented Mount Pleasant.

Robert A. Ramsay, who has spent several years at mine engineering in Tennessee and Virginia, is home visiting his mother, Mrs. Sadie Ramsay.

Superintendent Samuel Lowe now has 223 ovens in blast at the Frick company's Painter plant, running the 70 recently blown out with coal shipped from the York Run field in Fayette county.

### Company E all Right.

The result of the recent National Guard inspection shows that Company E stands second in the Tenth regiment and seventh among the 47 infantry companies of the Second brigade with a percentage of 95.63. Captain Nat. Hurst and his boys will leave on a special Pennsylvania car this evening for the brigade encampment at Tipton, Blair county.

### Dutch Have Water Famine.

Beer was cheaper than water in Somerset Friday, the latter bringing as high as 25 cents a gallon. At the hotel bars, beer was served instead of water for "chasers." The famine was caused by the placing of a new pump at the municipal water plant.

## FIGHTING TENTH PENNSYLVANIA COMING!

The Boys Who Made the State Famous in the Philippines in the Spanish-American War will Hold Their Reunion Here on Wednesday, July 31.

### OLD COMPANY E SURVIVORS TO ACT AS HOSTS.

The Tenth Pennsylvania Volunteer Infantry, which the late Colonel Hawkins took to the Philippines in the Spanish-American war to there win by its gallant actions the name of the "Fighting Tenth," will hold its eighth annual reunion here on Wednesday, July 31st, and it is up to loyal old Mount Pleasant to stand by and help her sons of old Company E to fittingly act the part of hosts to their comrades, with whom they upheld their country's honor in foreign service.

Old Company E's Philippine Veteran Association, of which Capt. J. A. Loar is president; Lieut. J. G. Thompson, vice president; Charles E. Clark, secretary, and William F. Snyder, treasurer, has appointed the following committees looking to the holding of the reunion:

Finance—Captain Loar, Lieutenant Thompson, Sergeant Frank Newill, Joseph Snyder and Frank Stevens.

Badges—Lieut. James Harkins and William Christner.

Music—H. N. Smith, A. B. Cooper and James Porter.

Advertising—Jacob Z. Milbee and Lieutenant Harkins.

A second meeting of the association was held Monday evening last in the old College avenue armory when special invitations were extended to all Civil war veterans and Company E, N. G. P., to take part in the parade. Local owners of automobiles will be asked for the use of their cars to haul the old soldiers. Lessee J. B. Goldsmith tendered the free use of the Grand Opera House for the regiment's business meeting and Mr. Harkins, as chairman of Council's committee in charge, offered Frick Park where it is likely the dinner will be served if the weather permits.

The local association will meet at the old armory tomorrow (Friday) evening at 8 o'clock to complete the program which will appear in full in these columns next week. The members cordially invite the citizens of the town generally and the ladies especially to meet with them on this occasion and lend their valuable aid in perfecting arrangements for the proper entertainment of the old regiment.

### AUTO ACCIDENTS.

Three Narrow Escapes of Riders in the Whiz Wagons.

On Monday last along the road near Cheat Haven an automobile, in which Mr. and Mrs. George C. White and son, Wilfred, of Uniontown, and Mr. and Mrs. H. A. Bridges and daughter, of Morgantown, were riding, went over a 25-foot embankment into the Cheat river. The occupants fell with the machine into the river, but no one was injured and the machine was not damaged.

Near Hopwood, Fayette county, the same day there was wrecked an automobile by accident, in which Mr. and Mrs. Henking, Miss Newsome and Max Sober, of Gallipolis, O., narrowly missed death on their way from Columbus to Atlantic City. In coming down the mountain the chain broke and the emergency brake

failed to work. All the occupants escaped uninjured.

B. F. Overholt's touring car, occupied by the owner's daughter, Miss Helen, and five young friends, was caught last Wednesday evening between severed parts of a Pennsylvania freight train at Ruth's crossing, Scottsdale, and badly damaged. The occupants all escaped uninjured by jumping.

### West Newton Fire Scare.

Fire, which for a time threatened the destruction of the central portion of West Newton, broke out Saturday morning in the stable owned by Henry McLaughlin on Second street. ### ONE FELLOW LUCKY.

A Fayette County Storm Starts an Abandoned Gas Well.

An unlooked-for gas well is blowing off with a good pressure as the result of a hurricane in the vicinity of Star Junction, Fayette county, Thursday night.

The well when first put down produced nothing, so it was abandoned. The storm blew over the derrick and started the gas coming. It is located on the farm of County Commissioner Martin E. Townsend.

Though the storm brought luck to Townsend it worked havoc at other points in Perry township. A barn on the farm of James Henry Murphy collapsed, causing the loss of \$1,500. The roof was blown off the barn of Norman C. Piersol and 18 giant oak trees in the grove of John C. Bleney, where the Grangers hold their meetings, were torn up by their roots.

### HEARTLESS PARENTS.

Made to Pay Forty Dollars for Cruelty to Their 4-year-old Child.

Anton Slovik and his wife were arrested Saturday at Standard by Constables Thompson and Ellis on charges of cruelty to their 4-year-old son. Neighbors testified to numerous instances of the most inhuman treatment inflicted upon the poor little fellow whose body showed many marks of blows. It was also stated that the defendants put the naked child in a box and left it out in the rain for three nights.

Justice J. W. Hunter, before whom the case was heard, fined the man and his wife each \$20 which they paid. Constable Ellis kept the little victim and will have it placed in the Greensburg children's home.

## A CONTINUED MEETING HELD MONDAY NIGHT

By the Mount Pleasant Board of Education.

### NEW TEACHER OF MUSIC IS ELECTED

IN THE PERSON OF MISS LILABRIDGE, OF PORT ALLEGHENY, PA.

This Young Lady was Recently Engaged at the Indiana State Normal Where She Stands High in Her Profession. Board is Now After a High School Man to Fill Vacancy Caused by the Resignation of Prof. Gramley. Danville Tries Hard to Retain Principal-Elect Gordy, but he will be Here.

The Mount Pleasant Board of Education held a continued meeting Monday evening and elected Miss Lilabridge teacher of music in the schools at a salary of \$55 a month. Miss Lilabridge's home is at Port Allegheny, Pa., but she has recently been engaged at the Indiana State Normal, giving instruction in both music and drawing. The latter branch has not been introduced here as yet; but, if the board decides to add it to the course, Miss Lilabridge will be prepared to take it up.

The board is now considering several applications for the head of the High School as Prof. Gramley, of Mt. Union, who was elected to that position, has resigned because of personal reasons.

The thirteen Danville directors tried hard to keep Prof. Gordy, the local principal-elect, at the head of their schools. They at first refused to accept his resignation and then seven of them voted to give him \$1,650 a year to remain there, \$150 more than he will receive here. But because the offer was not unanimous the Professor will come to Mount Pleasant.

### TIMELY WARNING

Saves Many Lives in a Railroad Collision at Irwin.

A timely warning by Superintendent A. P. Cameron, of the Penn Gas Coal Company, who was standing on the platform of the last coach of a train, saved the lives of many persons in a rear-end collision on the Younghiogheny branch of the Pennsylvania railroad, near Irwin last Thursday afternoon.

A southbound passenger train had stopped for coal and water when a string of coal cars with two locomotives bore down on it. The rear coach was filled, but all except two passengers got out through the doors and windows just before the crash. The caboose of the coal train was almost driven through the last coach. Harry Peters and Michael Zuratoff were pinned down by the wreckage, but escaped with a few bruises.

# BEER WAR IS OVER.

Westmoreland Manufacturers Forced to Withdraw Recent Advance of Two Dollars a Barrel.

## OUTSIDE BREWERS WERE GETTING TRADE.

The war between Westmoreland brewers and those of adjoining counties has been ended in the Westmorelanders' practical defeat.

Some months ago it was decided by the brewers of this county to raise the price of beer in one-eighth barrel quantities 25 cents, making the price \$1.25 a keg. Foreign customers protested.

Cambria county brewers began shipping beer to the mining settlements by the carload at \$1 a keg. Westmoreland manufacturers tried to get even by causing the arrest of collectors and agents of the Cambria brewers on charges of illegal selling. But this did not restore the lost trade, so the Westmorelanders have reduced the price to the old figure.

## HOBO JOINS THE SMART SET.

Tattered Tramp in a Victoria Drives in Park Cavalcade.

In the midst of the glittering equipages of fashion there rode through the East drive in Central park, New York city, on a recent afternoon a scarecrow of a man, lolled back with half-closed eyes, all alone, on the cushioned seat of one of the smartest victorias that bowled along while the upper ten were taking the air.

Stubby whiskers, a bulbous, fiery nose, ragged clothes and a battered hat betokened a denizen of the underworld in the nonchalant individual that coolly returned the stares focused upon him. On the box in front of him sat a coachman who radiated dignity and aplomb. Beside him was a foot-

COOLLY RETURNED THE STARES FOCUSED UPON HIM.

man. Both were in buff livery. The silver mounted harness attested care and fine discrimination in its selection.

For more than a mile from the plaza the unkempt dilettante was bowled along before the haughty coachman became conscious that the throng in the driveway and on the park walks was unusually interested in his turnout. Then John ventured a glance behind him.

In a flash the spanking bays were brought up on their haunches, and the coachman, with a look of deep disgust, descending, seized the man by the coat collar. Lifting him from the cushioned seat, with a single motion he dropped him upon the roadway, remounted the box and drove rapidly on.

The dethroned nomad slowly arose, grunted, scratched his neck reflectively and shuffled away.

Presumably his tatters slipped into my lady's carriage during a temporary block near the plaza.

## THE PRIMER OF FORTUNE.

The Why and Wherefore of Modern Financiering for Those of Moderate Incomes.

Q.—How can one make money safely?

A.—Of all forms of investment none pay so well or so surely as real estate.

Q.—What kind of real estate?

A.—Industrial realty is the surest and quickest money maker.

Q.—Why is it the best?

A.—A manufacturing center grows rapidly owing to the increased demand for its products. The factories and plants enlarge in order to supply the demand, and consequently give employment to additional people—these people must have homes and this demand causes building property to become scarcer—and scarcity enhances the values.

Q.—Is there good industrial real estate for sale?

A.—Yes, and in the greatest manufacturing district on earth.

Q.—Where?

A.—In Greater Pittsburg—the industrial mistress of the world. She pays out each year over \$300,000,000 in wages alone. Her banks have in capital, surplus and deposits over a half billion dollars—and shrewd investors have made millions of dollars in realty. In fact each day property is bought and sold at great profit.

Q.—Can you cite an instance?

A.—Thousands could be cited—one particular instance is the old cathedral property at Fifth avenue and Grant street. Not more than five years ago H. C. Frick bought it for \$1,500,000. It is vacant and Mr. Frick has refused several offers of \$2,500,000 for it. Just \$2,000,000 increase in five years.

Q.—But how can a person of limited income share in this prosperity?

A.—Anyone who can save 27 to 83 cents a day can embrace the opportunity.

Q.—How?

A.—Arlington Park offers all this opportunity.

Q.—Where is Arlington Park?

A.—Arlington Park is on the main line of the P. R. R., right in the center of the greatest manufacturing district on earth. Within a two-mile radius of Arlington Park 60 per cent of the entire output of the United States Steel corporation is produced. In the same radius more men are employed than in any similar size district in the world.

Q.—Why is it a good investment?

A.—Being practically surrounded by valuable real estate it is bound to enhance in value. It adjoins Wilmerding, and this town is surrounded by hills—all the available building property in the town is in use. The town must extend into Arlington Park as it is the only property available for building purposes. Ten to 15 years ago an acre in Wilmerding was worth from \$1,000 to \$2,500—today a 25x100 foot lot is worth from \$10,000 to \$20,000—and this property is but two to six squares away from Arlington Park.

Q.—What is the price of Arlington Park lots?

A.—Arlington Park lots are one acre in size and are selling at \$800 and up. Twenty-five dollars secures any lot—\$8 to \$25 a month pays for it; so that all have a chance to buy here.

Q.—Why is it sold so reasonable?

A.—Before we purchased it Arlington Park was a farm of 225 acres. The owners would only sell the entire farm, so that small purchasers were barred. We laid it out in acre lots and can afford to give the small investor an opportunity he could not otherwise enjoy.

Q.—Won't this opportunity last?

A.—Hardly. We are confident that every lot in Arlington Park will be sold quickly. Those who act quick will get the best lots and low prices. As soon as speculators get them they will be put up to the full selling value and no such terms as we offer will be allowed. It is a proposition that will pay the first buyer a handsome profit.

Q.—How can one learn more about Arlington Park?

A.—We have prepared a booklet telling all about it, and how to get a free trip to Pittsburg, and it will be sent free to all who address G. M. Cypher & Co., McKeesport, Pa.

## SHORT TALKS BY L. T. COOPER.

### MEDICINE.

It's curious what some people believe a medicine will do.

MISS ISAACSON.

She stated that I was a scoundrel, a robber and various other pleasant things.

Now the only thing I claim for Cooper's New Discovery is that it will put the stomach in working order. I know that if this is done, rheumatism, constipation, kidney and liver troubles, nervousness, and the general tired out, despondent feeling will disappear in ninety-nine cases out of a hundred. I know this medicine to be a fine tonic which used twice a year will throw off impurities and add flesh, strength and tone to the entire system. But it will not do the impossible. No medicine on earth will do more than help nature. Certain diseases are beyond all medicine, although God in his wisdom may some day give us frail humans a knowledge of how to cure them. At present I know Cooper's New Discovery to be as thoroughly efficient a medicine as was ever on the market, and people who will take it for the common ills to which flesh is heir will be more than satisfied.

Here is a letter from one who has tried: "For a long time I have suffered from severe headaches, weakness, and pains in my back and sides."

"Nothing I tried gave me relief, and a friend advised me to try your medicine. I improved from the first week. My back-ache and headache left me and I felt myself growing stronger. My appetite increased and I felt greatly improved in every way. I am indeed thankful for the benefit I have received." Miss Jennie Isaacson, No. 18 15th Avenue, West, Duluth, Minn.

We have sold and are selling great quantities of these famous medicines.

## Stick to the Handle

You get more facts about easy running right at the crank of a separator than by listening to talk. If a separator turns easily, the crank tells you so as soon as you touch it. I am selling the lightest running cream separator made—and it's the best every way you look at it. It's

## The Sharpless Tubular.

The Tubular is the cleanest skimming, most durable, easiest to wash separator made. The waist low can saves your back—the enclosed gears can't pinch your fingers—the self oiling device saves time, uses the oil over and over and prevents dripping on machine or floor. The Tubular skimmed 2½ to 9 times cleaner than any other in a National Clean Skimming Contest.

The Tubular is a money-maker and a labor saver—it increases the butter money 25 to 100 per cent, and lessens the work of handling milk about one-half. Bring your wife in to see it. She'll say it is the easiest to wash. Let me give you a catalogue with a lot of good things in it.

# The Mount Pleasant Journal.

JOHN L. SHIELDS, EDITOR AND PUBLISHER.

Subscription, \$1.50 a Year, Payable in Advance.

Mount Pleasant has within its borders a population of over 5,000; while more than double that number of people live immediately around about and for them it is the natural center, as shown by a postoffice distribution of over 15,000. It has both Pennsylvania and Baltimore & Ohio railroad branches and will soon be given the main line of the Coke Region Trolley System. It is completely surrounded by coke plants and has in the town Bryce Brothers Company's big tableware glass factory, the Mount Pleasant Tool Company, Husband Company's planing mill, Galley Bros.' carriage factory, foundry, brewery, distillery, pop plant, two flouring mills, 13 Protestant and 3 Catholic churches, Mount Pleasant Institute, 2 large Public Schools and 3 Parochial schools.

There is coal in abundance at the town's gates and the same is true of electricity and natural gas for heat, light and power. All of which things, when taken in connection with the best water system in Western Pennsylvania, make Mount Pleasant's numerous manufacturing sites ideal.

## NOW FOR THE FIGHTING TENTH.

The "Fighting Tenth," the regiment that made Pennsylvania famous in the Spanish-American war not only by the gallant part it took against the Dons but by its splendid service in putting down the Filipino insurrection that followed our unpleasant with Spain, will hold its annual reunion here on Wednesday, July 31st.

Nine years and more ago Mount Pleasant sent her young warriors of Company E with this regiment to the far off isles of the Pacific where some of them fell in battle and other succumbed to disease before peace was restored and they were honorably discharged by a grateful government that they had faithfully served.

These survivors of old E will act as hosts to their regimental comrades at the approaching reunion, and THE JOURNAL knows that the people of Mount Pleasant and vicinity will do everything in their power to help make the occasion memorable.

## TWO-CENT RATE FIGHT.

The fight of the Pennsylvania Railroad Company against the new two-cent rate law, passed by the last Legislature and to go into effect October 1 next, was begun in the courts at Philadelphia last Thursday. President McCrea and many of the road's high officials were present.

Attorney John G. Johnson, in opening the case, explained to the court that the Pennsylvania Railroad Company contended that its charter is not subject to revocation or new legislation since the new Constitution of 1874, and even if it were the 2-cent rate imposed by the new law is unreasonable and without justification. The injunction proceedings also involved a question whether the new law was not in violation of the United States regulations governing inter-state commerce.

A statement startling to stockholders of the Pennsylvania was made by William B. Kraft, chief clerk in the controller's office, who testified that if the new 2-cent rate became effective the net earnings of the road would probably so decrease that the annual dividend rate would probably be cut from 5 to 3 per cent.

Pennsylvanians have always been proud to boast that the great corporation named after their state was the best managed and the best equipped railroad in the world. It's rather humiliating now to have its officials claiming that it cannot, like many other roads are doing, do a paying business by carrying passengers at the rate of two cents per mile.

## LOCAL TAX QUESTION.

Now that the commissioners have fixed three mills as the county tax rate, it is easy for the Mount Pleasant payer to figure out what he will have to do in this line, as Council has assessed seven and one-half mills for borough purposes and the Mount Pleasant Board of Education has laid ten mills for school purposes and four mills looking to the erection of a new high school building.

While these three, borough, school and county, total up 24½ mills, the four mills laid by the directors for a new school building will not be collected, provided the electors approve of the proposed \$44,000 bond issue asked for by the directors and for which there will be a special election held on Tuesday, August 6.

One of the sworn duties imposed upon school directors is to provide suitable places for the instruction of pupils of a school age in their respective districts. Here in Mount Pleasant additional rooms must be had. It is up to the directors to secure them just as it is to the taxpayers to pay the bills. If the electors prefer to settle the cost of a new building in a few years they will knock the bond issue out at the polls; if they wish to string the payments out for

many years, making the annual rate small, they will give their approval of bonds.

As a total of over two per cent, without the four additional mills for a new school building, is pretty high, the increased valuation adding about one-third to last year's rate, the sensible thing to do is to vote for bonds.

## FOOLISH BUT DANGEROUS TALK.

The determination to send a fleet of our battleships around the Horn into the Pacific ocean, revived all sorts of talk about us going to war with Japan at no very distant day. Japan has its yellow press, too, one Tokyo paper quoting Admiral Sakamoto in this manner:

"American naval officers are brilliant figures at balls and social gatherings, but they are very deficient in professional training and practice. It is too much to expect a burning patriotism in the American naval service in case of war with Japan. It is likely that most of the crews would desert and leave the ships."

Of course, this Japanese admiral didn't say anything of the kind and head officials of both countries knew that he didn't before he denied the interview. All such stories are foolish, but they are also dangerous, being liable to stir up more trouble than all the wise men of either nation could settle.

New Pure Food Law Great.

The new pure food law went into effect on July 1st. If you find anything peculiar in the feed from now on don't imagine it's a hair. It's merely a hallucination.

A Mean Yankee Trick.  
Pittsburg Dispatch.

Japan may forgive San Francisco, but it is apt to treasure some animosity against Wall street. War scares for the depression of Government loans is one wrinkle of Western civilization that is new to the Mikado's empire.

Importance of Good Digestion.  
Connellsville Courier.

Good digestion makes good health. Good health makes good spirit. Good spirits make good nature, the sunshine of the home, the enemy of strife, the joy of life. A good wife should aim to give her husband a good foundation. If he doesn't do the rest, there's something wrong about him.

Talented Scottsdale Boy.

Robert J. Kennedy, of Scottsdale, the talented young son of John W. Kennedy, manager of the East End brewery, has been appointed Registrar of the Catholic University of America at Washington, D. C., and has already taken up the duties of the position. In addition to acting as registrar, he will follow the study of philosophy and law in the school.

Foreign Banker Prosecutes.

A. G. Kail, a banker of Uniontown, has caused the arrest of four foreigners charged with being implicated in a conspiracy to injure his business by circulating reports which caused a run on his bank. He accused them with spreading the report of his death and that he was bankrupt.

Brilliant Scottsdale Affair.

Miss Helen Overholt, daughter of B. F. Overholt, gave a swell dance in the Auditorium at Scottsdale Friday evening in honor of her house guests, Misses Julia Narganes, Aurelia Narganes and E. C. Myers, of New York. Misses Irene Husband and Elsie Bryce were the guests from this place.

## If You're Going to Buy a Thin Suit

for hot weather, don't imagine that "anything will do." You want assurance of quality a good deal more in thin, unlined clothes than in the heavier goods.

There's where the Hart, Schaffner & Marx all-wool, excellent quality comes in. The thin suits they make keep shape and look dressy and stylish long after the cheap stuff hangs like a rag.

Have the quality; it really costs less than it's worth.

## HAPPENINGS AT HOME

For the Past Week Briefly Mentioned.

## LITTLE TALK OF THE TOWN

THAT WILL BOTH INTEREST AND ENTERTAIN

A Department in Which the Local Editor Holds High Carnival and Works off his Surplus Energy in Condensations That Deal Solely with Matters Relating to Mount Pleasant

John Heffling is confined to his Main street home with an attack of typhoid fever.

The stockholders of the Mount Pleasant Tool Company met Friday and decided to issue \$25,000 worth of bonds.

John Russell has accepted a position in the glass works at Morgantown, W. Va., for which place he left Monday.

The total valuation of townships in this county is \$87,296,689. Hempfield leads with \$10,031,801 and is followed by Mount Pleasant with \$9,424,943.

In the first of a new series of duck pin games at the Diamond bowling alleys Friday evening the Mohawks defeated the Big Five by nine pins.

Mrs. John Kough, of the West End, suffered a stroke of paralysis Friday evening, effecting the entire right side. Her condition is somewhat improved.

L. N. Kreinbrook, of Shelby, Ohio, who will move back here with his family in the fall, has bought the Thomas Dalton residence on Smithfield street for \$3,000.

F. M. Husband has had a serious time for several weeks with sore eyes. While coming home from Connellsville in his automobile a windstorm came up and filled his peepers with coke ashes.

Hubert Jandeliet has resumed his old position as engineer at the East End brewery, moving his wife and family Tuesday from Uniontown to one of the Shaw properties on College avenue.

The rule which forbids the leaving of an unhitched team of any kind in the cemetery is being strictly enforced. Horses left untied in a wagon the other day pawed up a flower bed and the owner had to pay \$5.

Robert Shaw, of Cleveland, Ohio, broke his left arm there the other day by a fall down steps at a new house whose construction he was superintending. He has joined Mrs. Shaw who is here on a visit.

The Young Ladies Circle of the Methodist Episcopal church will hold a progressive color luncheon in the bank and trust company assembly rooms Friday evening, July 19. A Scottsdale orchestra will furnish the music.

Wilbur, young son of Mr. and Mrs. H. C. Morrison, of the East End, was in the hospital the past week receiving treatment for a fractured right elbow got while rolling a companion in a barrel. It is feared the arm will remain stiff.

The Fayette and Westmoreland Photographic Society held its first annual outing at Ohiopyle Thursday and had a jolly good time despite the rain. Mr. and Mrs. Elmer Springer and R. H. Goodman represented Mount Pleasant.

Rev. Dr. Reason Divilbliss, a Fayette county Methodist preacher who has but one leg, will speak every evening this week on "Liberty and Freedom" at the corner of Main and Church streets where he will preach at 6:30 Sunday evening.

Owing to the absence of one member of the board, the school directors meeting Saturday were unable to lay the millage in Mount Pleasant township and purchase additional ground needed for a new school building at Griffith. The board adjourned to meet again at Hurst's school this evening.

Frank H. Hurst, the local contractor, is among the number whose bids for the erection of the new state armory at Connellsville will be opened by the commission at Harrisburg Saturday next. All the bids asked for several weeks ago were rejected as being away too high, some touching \$48,000 for the job.

## Furtunate Escape.

While westbound Pennsylvania passenger train No. 25, with two engines, was passing Southwest Junction at a high rate of speed Saturday evening, one of the front wheels of the head engine broke and derailed the tank. The tender did not leave the rails until the Greensburg station was reached, half a mile away, when the second engine applied the brakes and stopped the train without further damage.

## New Wrinkle in Forgery.

A stranger the other day took in Monessen hardware firms, C. S. Pore and the Monessen Hardware Company, on a new forgery scheme. At each place he bought a bill of goods, giving a bogus check in each instance for some \$7 more than the purchase amounted to. The victims still have the goods but are out the difference in cash they gave the smooth operator who promptly skipped the town.

Letter to John D. Hitchman.  
Mount Pleasant, Pa.

Dear Sir: No man is in a position to influence men with regard to their property more than you in that little room where they tell you their troubles. Pity, if you don't know how to keep a house dry and sound, any sort of structure, house, store, factory, warehouse, shop, barn, fence—and sort of fence, except rail; with paint.

What paint? The paint that takes least gallons; for paint costs money, and putting it on costs twice as much as the paint.

That is short; but that's all; it includes the rest. One paint wears long, another wears short; but the one that wears long is the least-gallons paint; least-gallons means pure and strong, and most-gallons means adulterated and weak, besides small gallons.

Paint is one of the biggest interests in the United States; not the business of making it; no, the business of paint, taking care of property. Paint is worth a great deal more than its costs, and the best costs least: Devco.

Yours truly,

F. W. DEVCO & CO.

# CRUSHED TO DEATH.

Death of Philip Moonley, a Pennsylvania Freight Engineer, Witnessed by His Wife and Daughter.

## SAD ACCIDENT THAT OCCURRED AT IRWIN.

Philip Moonley, a freight conductor of the Pennsylvania railroad, was instantly killed in a wreck, on the Yough branch at Irwin last Wednesday afternoon. The accident occurred almost in front of his home and was witnessed by his wife and daughter, who were on the porch waving at him as he was starting out on his run.

A partially open switch caused the cars to leave the track and the caboose careened over an embankment. Conductor Moonley and brakeman Preston jumped. The former fell as he alighted and before he could get up the cars ahead piled upon him and he was crushed. Preston escaped without injury.

### SPANKED HIS MOTHER-IN-LAW

Bargeman in Correcting Woman Dislodged Her Front Teeth.

Because his mother-in-law "sassed" him James Henry Young, the captain of a Hudson river barge, spanked her so hard that he jarred two of her teeth out, and now he is a prisoner charged with assault.

Young and his wife live at 274 East One Hundred and Thirty-fourth street, New York city. He is in charge of one of the big railroad floats of the New York, New Haven and Hartford Railroad company and when he gets through with his work and goes home expects to find his wife there.

After a particularly hard day Young went home and instead of being wel-

HE PUT HER ACROSS HIS KNEE.

comed by his wife found the key under the doormat. He let himself in the lonesome flat and not finding the expected hot supper had to go to the refrigerator and cheer up on cold potatoes, macaroni and other things.

After Young had fed the cat and was closing up the house for the night his wife came in and told him she had been up to her mother's.

"I'm going up there myself," Young announced, and he went.

Mrs. Mary A. Lyman is his wife's mother, and Young asked her why she persisted in keeping her daughter, his wife, away from her home.

"None of your business," Mrs. Lyman answered, according to Young.

"Don't sass me," Young says he warned his mother-in-law.

"I'll do as I please," Young says Mrs. Lyman returned, and then followed a "scissors" conversation.

Mrs. Lyman was telling Young exactly what she thought of barge captains in general and him in particular when he reached over and, picking her up, put her across his knee and spanked her. The spanking was a good, sound one, too, even Young admits.

Mrs. Lyman says he knocked two of her teeth out, but Young insists they fell out.

### HE SOLD HIS DAUGHTER.

Transferred Her For \$100 to a Man Three Times Her Age.

Bargained away by her father for \$100 to become the wife of a man nearly three times her age is the lot of Mabel Begonian, a pretty fourteen-year-old Armenian girl of Worcester, Mass., the bride of Isidore Shanheidan, aged forty.

Friends of the girl reported the story of the wedding to the police, and if their statements are true the girl was sold to the highest bidder. Mabel left home a short time ago on account of a cruel stepmother. A little later Shanheidan opened negotiations with the girl's father. The money bid was accepted, and the following day Shanheidan secured a marriage license, giving the girl's age as eighteen and his own as twenty-five. An Armenian priest married them.

The police advised friends of the girl to secure an annulment of the marriage. This, her friends say, they will at once attempt. Dikran Thomajanian, another suitor of Mabel, is at the head of the movement to give her back her freedom.

### THE CAT CAME BACK.

Fell Fifteen Stories and Walked Back Upstairs.

This is the story of a cat, the pet of the Midway club of Chicago, that fell fifteen stories in the arway of the First National bank building and is alive and well.

The animal plunged from a window of the millionaires' lunch room on the eighteenth floor in the big loop skyscraper to the skylight of the bank quarters on the third floor. The heavy wire screening above the glass was bent and twisted by the impact, and a few pieces of glass fell to one of the clerks' cages on the floor below, but the cat escaped uninjured. Fifteen minutes after the fall the animal returned to its quarters in the eighteenth floor lunch room.

Choosing probable death down the light shaft in preference to a struggle with a Boston terrier, the animal leaped. As a group of the lunchers reached the window they heard a crash on the heavy glass skylight fifteen floors below.

All believed the cat had been crushed to death. A quarter of an hour later, while the "horrible death" was being discussed at a score of tables, the cat came back. It slunk toward the kitchen and disappeared.

### HOIST BY BARNUM'S PETARD.

Famous Old Circus Mortar Shoots Boy Into an Apple Tree.

The shade of P. T. Barnum, the once great showman, probably received a shock when his famous old mortar went off unexpectedly while some lads were playing with it at South Norwalk, Conn.

One of them, Henry Remson, was shot fifty feet into the top of an apple tree. Young Remson did not have the art of aerial flight well mastered, nor did he have the selection of a landing place, and it will be a week before he leaves his bed.

George L. Britton, owner of the relic, "did not know the thing was loaded" and is threatened with a suit for damages.

Barnum made a big hit with the cannon in its day. There was a fake explosion and then a powerful spring would shoot a fair maiden up to the top of the canvas.

### Wild Bull Chases Real Autos.

The speed laws are being broken with impunity by motorists in red cars near Winsted, Conn. An infuriated Guernsey bull escaped recently and has since been at large at Barkhamsted, chasing every red auto that passes through. A sign has been posted warning persons in red cars to beware of the bull, and they need no further invitation when the bovine spies them.

# The KING of DIAMONDS.

By Louis Tracy,

Author of "Wings of the Morning," "The Pillar of Light," Etc.

COPYRIGHT, 1904, BY EDWARD J. CLODE.

[CONTINUED.]

How much further her disjunct comments might have gone it is impossible to say, but at that moment a French maid entered the room and gazed inquiringly around the various small tables with which it was filled. At last she found the lady, who was breakfasting alone, and sped swiftly toward her. "I am so glad, milady," she said, speaking in French. "The bag has found itself at the police station. The cabman brought it there, and, if you please, milady, as the value was given as \$8, he claimed a reward of \$1." "Which you will pay yourself. You lost the bag," was the curt reply. "Where is it?"

The maid's voice was somewhat tearful as she answered:

"In milady's room. I paid the sovereign."

Her ladyship rose and glided gracefully toward the door, followed by the maid, who whispered to a French waiter—bowing most deferentially to the guest as he held the door open—that her mistress was a cat. He confided his own opinion that her ladyship was a holy pig, and the two passed along a corridor.

Lady Morland hastily tore open the recovered dressing case and consulted an address book.

"Oh, here it is!" she cried triumphantly. "No. 3 Johnson's Mews, Mile End road, E. What a horrid smelling place. However, Messrs. Sharpe & Smith will now be able to obtain some definite intelligence for me. Julie! My carriage in ten minutes."

Thus it happened that during the afternoon a dapper little clerk descended from an omnibus in the neighborhood of Johnson's Mews and began his inquiries, as all Londoners do, by consulting a policeman. Certain facts were forthcoming.

"A Mrs. Anson, a widow, who lived in Johnson's Mews? Yes, I think a woman of that name died a few weeks ago. I remember seeing a funeral leave the mews. I don't know anything about the boy. Sometimes when I pass through there at night I have seen a light in the house. However, here it is. Let's have a look at it."

The pair entered the mews and approached the deserted house. The solicitor's clerk knocked and then tried the door. It was locked. They both went to the window and looked in. Had Philip hanged himself, as he intended, they would have been somewhat surprised by the spectacle that would have met their eyes. As it was, they only saw a small room of utmost wretchedness, with a mattress lying on the floor in front of the fireplace. An empty tin and a bundle of old letters rested on a rickety chair, and a piece of sacking was thrust through two broken panes in the small window opposite.

"Not much there, eh?" laughed the policeman.

"Not much, indeed. The floor is all covered with dirt, and if it were not for the bed one would imagine that the house was entirely deserted. Are you sure Mrs. Anson is dead?"

"Oh, quite sure. Hers was rather a hard case, some one told me. I remember now. It was the undertaker. He lives near here."

"And the boy. Has he gone away?" "I don't know. I haven't seen him lately."

Each of these men had read all the reports concerning Philip and his diamonds. Large numbers of tiny, white pebbles were lying on the floor beneath their eyes, but the window was not clean, and the light was far from good, as the sky was clouded. Yet they were visible enough. The clerk noticed them at once, but neither he nor the policeman paid more heed to the treasures almost at their feet than was given by generations of men to the outcrop of the main reef at Johannesburg. At last they turned away. The clerk gave the policeman a cigar with the remark:

"I will just ask the undertaker to give me a letter, stating the facts about Mrs. Anson's death. I suppose the boy is in the workhouse?"

"Who knows? It often beats me to tell what becomes of the kids who are left alone in London. Poor little devils, they mostly go to the bad. There should be some means of looking after them, I think."

Thus did Philip, bravely sustaining his heart in the solitude of a prison, escape the greatest danger that threatened the preservation of his secret, and all because a scheming woman was too clever to tell her solicitors the exact reason for her anxiety concerning the whereabouts of Mrs. Anson and her son.

The boy passed a dolorous Saturday night and Sunday. Nevertheless the order, the cleanliness, the comparative comfort of a prison were not wholly ungrateful to him. His meals, though crude, were wholesome, luxurious even, compared with the privations he had endured during the previous fortnight. The enforced rest, too, did him good, and, being under remand, he had nothing to do but eat, take exercise, read a few books provided for him and sleep.

With Monday came a remarkable change in his fare. A pint of first rate cocoa and some excellent bread and butter for breakfast evoked no com-

ment on his part, but a dinner of roast beef, potatoes, cabbage and rice pudding was so extremely unlike prison diet that he questioned the turnkey.

"It's all right, kid," came the brief answer. "It's paid for. Eat while you can and ask no questions."

"But"—The door slammed, and at the next meal Philip received in silence a cup of tea and a nice tea cake. This went on during three days. The good food and rest had already worked a marvelous change in his appearance. He entered the prison looking like a starved dog. When he rose on the Thursday morning and washed himself, no one would have recognized him as the same boy were it not for his clothes.

After dinner he was tidying his cell and replacing the plates and the rest on a tin tray when the door was suddenly flung open, and a warder cried: "Come along, Morland. You're wanted at the court."

"At the court!" he could not help saying. "This is only Thursday."

"What a boy you are for arguing! Pick up your hat and come. Your carriage waits, my lord. I hope you will like your quarters as well when you come back. A pretty stir you have made in the papers the last five days."

Philip glanced at the man, who seemed to be in a good humor.

"I will not come back," he said quietly, "but I wish you would tell me who supplied me with food while I have been here."

They were passing along a lofty corridor, and there was no superior officer in sight. The warder laughed. "I don't know, my lord," he said, "but the men came from the Royal Star hotel, opposite."

Philip obtained no further news. He passed through an office, a voucher was signed for him, and he emerged into the prison yard, where the huge prison van awaited him. He was the only occupant, just as on the first memorable ride in that conveyance. When he came to the prison from the police court he had several companions in misery, but they were "stretched." His case was the only "remand."

During the long drive Philip endeavored to guess the cause of this unexpected demand for his presence. Naturally, he assumed that Johnson's Mews no longer held safe the secret of his meteor. Such few sensational romances as he had read credited detectives with superhuman sagacity. In his mind, Johnson's Mews was the center of the world. It enshrined the marvelous—how could it escape the thousands of prying eyes that daily passed through the great thoroughfare of the East End but a few yards away? Judging from the remark dropped by the warder, all London was talking about him. A puzzling feature was the abundant supply of good food sent to him in prison. Who was his unknown friend—and what explanation was attached to the incident?

Philip's emotions were no more capable of analysis than a display of rockets. Immured in this cage, rattling over the pavements, he seemed to be advancing through a tunnel into an unknown world.

At last the van stopped, and he was led forth into the yard of the police court. He followed the same route as on the previous Saturday, but when he ascended into the court itself he discovered a change. The magistrate, a couple of clerks and some policemen alone were present. The general public and the representatives of the press were not visible.

He had scarcely faced the bench when the magistrate said:

"You are set at liberty. The police withdraw the charge against you."

Philip's eyes sparkled, and his breast heaved tumultuously. For the life of him he could utter no word, but Mr. Abingdon helped him by quietly directing the usher to permit the lad to leave the dock and take a seat at the solicitors' table.

Then, speaking slowly and with some gravity, he said:

"Philip Morland—that is the only name by which I know you—the authorities have come to the conclusion that your story is right. You have unquestionably found a deposit of diamonds, and, although this necessarily exists on some person's property, there is no evidence to show whose property it is. It may be your own. It may be situated beyond the confines of this kingdom. There are many hypotheses, each of which may be true; but, in any event, if others lay claim to this treasure trove—and I warn you that the crown has a right in such a matter—the issue is a civil and not a criminal one. Therefore you are discharged and your property is now handed back to you intact."

A clerk placed before Philip his parcel of diamonds, his key, the rusty knife, the pieces of string and the two buttons—truly a motley collection. The boy was pale and his voice somewhat tremulous as he asked:

"May I go now, sir?"

Mr. Abingdon leaned back in his chair and passed his hand over his face to conceal a smile.

## NO LONGER WALLED CITY

Masontown will Have Connection with the West Penn Railways Company Within a Few Days.

### IMPORTANT LINE IN BIG TROLLEY SYSTEM.

Masontown, the "Walled City" of Fayette county, will within a few days have its first trolley connection with other towns. The extension of the West Penn Railways Company's line from Leckrone to Masontown is about completed. Masontown is several miles back from the Monongahela river and has no railroad. The only way its residents have had to get out in the past has been by way of a stage line.

What is expected to be one of the most important links in the entire system of the West Penn is the Footedale-Orient line, which went into operation on Saturday. This has a direct connection with the Brownsville line and will operate between New Salem and Republic.

## "THE MILLIONAIRE GIRL."

You Will Fall in Love With Her.

The first installment of a stirring love story was published in last Sunday's issue of The Pittsburg Dispatch. Arthur W. Marchmont, the author, has poured enough intense action, thrilling situations and charming love into this one story to have sufficed for a dozen successful novels. You cannot afford to miss this great story, and if you were not lucky enough to read the first installment, send a postal card to The Dispatch Circulation Department, 1331 Fifth Avenue, Pittsburg, Pa., and it will be mailed to you free. Tell your newsdealer how to leave The Sunday Dispatch regularly.

A lady from Columbus says,  
"I have used a pair of KEEN KUTTER Scissors for about 6 years. They have never been sharpened since I have had them and are as sharp as they ever were, although they have been in constant use in a dress-maker's shop. I think the secret of these satisfactory scissors is on account of their perfect material and adjustment. I would use no other kind."

## EXPERT REPAIRING

One day a little girl brought a ring to our store with one set out and the band entirely broken in two. It was indeed in a dilapidated shape and she sorrowfully asked if it could be fixed. We told her it could, and charged 25 cents for soldering and 15 cents for a new set—40 cents in all. She called for it the next day and would hardly believe it was the same ring. The place where it was soldered could not be found, and with a new set and a thorough polishing it looked exactly like new.

Maybe you have some old jewelry that you don't think is worth repairing. Bring it to us and we will quote a price, and we will not attempt to repair anything that we cannot put in first-class shape. Our Jewelry and Watch Repairing Departments are thoroughly up to date, and our workmen take pains to repair everything in the best possible manner. We give prompt service and our charges are reasonable.

## Bad Breath.

A well-known physician, who undoubtedly knows, declares that bad breath has broken off more matches than bad temper.

There are ardent lovers who must sometimes wish their sweethearts presented sweeter mouths to be kissed. Good teeth cannot prevent bad breath when the stomach is disordered. The best cure for bad breath is a cleansing out of the body by use of

the tonic laxative. This is a herb medicine, sold in 25c. and 50c. packages by druggists and it is saving more doctor's bills than any other medicine has ever saved. It cures headache, backache, indigestion, constipation and skin diseases.
